

WaveRunner

2009

Want high-performance excitement?

Ultimate performance, head-turning style and out-and-out fun on the water! The latest WaveRunner line-up blasts ahead of the pack, leaving every other watercraft in its wake. Again!

Here, every page you turn reveals another new technical innovation, a refreshing piece of design thinking or an ingenious, user-friendly feature that'll leave you wanting to see more, know more, experience more - to get out there on your own WaveRunner.

One thing's for sure, whichever model you choose you'll be riding the world's leading watercraft in its class. Ultimate technology. Ultimate fuel economy. Ultimate reliability. The one with more awards, trophies and 'industry firsts' behind it than any other. The one guaranteed to deliver your personal dream - and stir your emotions like never before.

Non-stop, High-performance Enjoyment. Only from Yamaha.

Then jump on a Yamaha!

Broaden your horizon with the new FZS and FZR

Get fired up on pages 10-13

The pleasure of choice

Since launching the first WaveRunner more than three decades ago, everything we've learned has been re-invested into development of designs and technologies dedicated to bringing you the ultimate watercraft experience.

So whether you're passionate about the excitement of high speed and hard turns, or more of a relaxed cruising soul, you'll find your

perfect choice in the WaveRunner line-up. Of course, we know that sometimes you'll want to blur the edges between different riding moods, so we make them all equally flexible and capable. One day a long-distance cruise out to a favourite spot with a partner? - the next, blasting out for some serious action, solo or with a group of friends? On a WaveRunner you really can indulge your passion of the day - and enjoy the best of all worlds.

Technology the world trusts

Supercharged

Yamaha's supercharged, intercooled 1812cc engine. A powerful milestone in watercraft technology.

NanoXcel™

Revolutionary super-lightweight, super-tough NanoXcel material for hulls and decks of FX and FZ models.

At the heart of every WaveRunner is leading edge technology unmatched by any other watercraft; from the super-lightweight yet super-tough NanoXcel hulls of our FX and FZ models, to the supercharged, inter-cooled 4-stroke engine. This track record of technical advancement and innovation is unique to Yamaha; and has created the world-leading reputation of today's WaveRunner. It's also what we call *The Yamaha Difference*.

Economy and environment

Thrilling performance and handling is only part of the story, and in other vital areas, the head must lead the heart. That's why Yamaha has also used its huge experience and technological resources to develop unequalled standards of fuel economy, improved environmental cleanliness and quiet, sociable operation.

Most important of all, this mastery of *all* aspects of marine engineering delivers you the sheer turnkey reliability that's the hallmark of every Yamaha.

The Yamaha Difference

Supreme performance

Yamaha's performance engineering and racing heritage has long been the stuff of legend and a look inside a WaveRunner confirms why. Here you'll find a neatly arranged and impressive-looking powerhouse, packed full of what is clearly the very latest in marine technology.

Yet this unique performance package would not be complete without the wide range of efficient, sophisticated systems which give you command and control over all that power. It's an awesome combination we've worked long and hard to perfect; and it makes the WaveRunner experience very special indeed.

HULL CONSTRUCTION MASTER CLASS

WaveRunner hulls deliver an exhilarating, comfortable ride, with a rare combination of straight-line stability and tight, rock-steady cornering. FX and FZ models feature the revolutionary NanoXcel hull and deck material. Lightweight yet super-tough, it saves a massive 25kg and helps achieve their amazing speed, agility and fuel economy.

HYPER-FLOW JET PUMP PROPULSION

This is one of the secrets behind the legendary WaveRunner reputation for exhilarating handling and exciting performance. The outstanding 'bite' and acceleration is due to such features as a high-flow intake, a Thrust Directional Enhancer and progressive-pitch stainless steel impeller. Ruthlessly precise tolerances within the impeller housing play their part too.

THE ULTIMATE POWER SOURCE

WaveRunner engines feature Yamaha's world leading marine 4-stroke technology so they comply with the latest emission requirements and offer impressive fuel, oil and maintenance economy. The awesome supercharged and intercooled 1812cc 4-stroke engine features in the FZ and FX SHO models.

QUICK-SHIFT TRIM SYSTEM (QSTS)

The comfortable twist-grip offers smooth, click-by-click control of 5 trim positions within a 24° range. Unique to Yamaha, this system allows tighter turns and more control by offering almost instant changes of trim on-the-fly. You also get 'on the plane' faster and reach top speed more quickly. FZ and FX models

Y.E.M.S.[®] - YAMAHA ENGINE MANAGEMENT SYSTEM

An integrated, computerised management system that controls and adjusts such functions as ignition timing, fuel injection mapping, engine diagnostics and off throttle steering (OTS). The OTS function of Y.E.M.S. activates when the operator releases the throttle lever and attempts to steer the watercraft. This assists the operator in turning while the watercraft is decelerating.

ADJUSTABLE TILT STEERING

A simple click. That's how easy it is to set the 4-step steering position to a comfortable angle and height that matches your riding style and personal preferences (*FX models*). A 3-step telescopic steering adjustment system is a feature of the new FZ models.

ELECTRONIC CONTROL DEVICES

In addition to instant response, Yamaha's electronic system delivers other attractive and practical engine control functions for owners of our top-of-the-range FX SHO model:
1] **Cruise-Assist.** One-touch speed-setting. No need for constant throttle adjustment; changing the throttle position cancels the setting.

2] **No-Wake Mode™.** In speed-controlled zones, simply select this mode and let the control system help you stay within the limit.
3] **Reverse Traction Control.** A clever system that manages RPM to prevent over-revving in Reverse, making for smooth manoeuvring.

The Yamaha Difference

A passion for detail

This is where you see, feel and touch the passion in every detail of technology and innovation that we put aboard your WaveRunner - from first concept to final fit-out.

These are just some of the special and unique ingredients that work together to help create *The Yamaha Difference* - and which will turn every ride you take into a rewarding and exhilarating experience.

YAMAHA SOUND SUPPRESSION SYSTEM (YSSS)

YSSS is a technically advanced system that greatly reduces sound intensity levels. It uses an ingenious array of resonators, a through-hull exhaust and special intake baffles to dramatically reduce noise – not just to improve quality of life for our riders, but for other people too.

REAR VIEW MIRRORS

These large and stylish convex mirrors are designed and positioned to give a wide field of vision; they help you keep a watchful eye on passengers and wakeboarders, as well as giving you a clue as to who might be following in your wake!
FZ and FX models, VX CRUISER and VX DELUXE.

MULTI-FUNCTION INSTRUMENT PANEL

The FX Cruiser SHO features this stylish panel with large analogue speedo/tachometer unit. Clear and accurate readouts are provided for fuel level, air and water temperature, compass heading, battery voltage and running hours. Automatic alerts for low fuel, low oil pressure and overheating are other features of this neat and impressive package.

THE BEST SEAT ON THE WATER

The intensive programme of ergonomics research at Yamaha has clearly been worthwhile. All WaveRunner seats offer a great feeling of comfort, security and riding pleasure, whether you're flying along – or taking it easy. The special Cruiser seats are designed to ensure rider comfort over longer distances.
All models ... except SuperJet!

EASY-TO-READ INSTRUMENTATION

All models (except SuperJet) feature digital multi-function metering with speed, tachometer, fuel level, running hours and battery voltage; plus automatic alerts for low fuel, low oil pressure and overheating. Our FX and FZ models also feature an analogue speedo/tachometer unit.

JUST PACK UP AND GO

Generously sized water-resistant storage facilities, bow lockers and beverage holders, as well as a great deal of useful space for personal items and accessories are featured on most models. A handy glove box is also to be found on most WaveRunners (except, for practical reasons, the SuperJet).
Capacity and features vary by model.

REMOTE SECURITY AND LOW-RPM MODE™

A button-push on the remote control disables or re-enables the ignition, preventing accidental start-up or an unexpected joyride you haven't authorised! A special 'L' mode (low-RPM) can also be engaged by a second button on the remote control, reducing the power available to the rider.
FZ and FX models, VX CRUISER and VX DELUXE

WELCOME ABOARD!

Every model welcomes you aboard with comfortable, anti-slip Hydro-Turf® mats and the handy re-boarding step (FZS, FX and VX Cruiser models) makes it easy to get out of the water when you've been wakeboarding, skiing or swimming. On VX & VX Cruiser models, ease of re-boarding is aided by the extended stern platform.

FZS

ULTRA HIGH-PERFORMANCE FAMILY WATERCRAFT

SEATS UP TO 3 RIDERS

ADJUSTABLE TELESCOPIC STEERING

Fresh ideas are our lifeblood when it comes to injecting more sheer fun into watersports, so check out the exciting new FZ models. The FZS is our three-seat version, designed for high performance solo riding – or fast cruising with passengers – a machine so perfectly balanced and flexible, it's your choice! The advanced NanoXcel hull is the lightest in its class and specially designed to maximise the extraordinary power of the supercharged engine, while the rounded keel and new bow shape transform cornering and handling performance and set new standards of rider comfort.

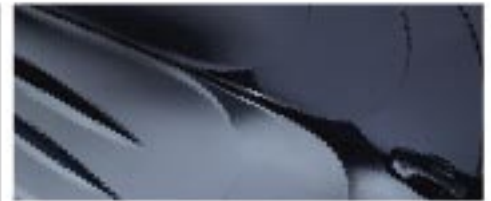

What's more, this machine can do something no other watercraft can. Its clever telescopic steering allows you to carve fast and hard in the classic lean-forward position – or make a quick adjustment and ride standing up – rough water then becomes an exhilarating, fun-filled challenge!

FZS – Enjoy the freedom.

Telescopic steering

Unique telescopic steering. Change your style to suit the conditions with our adjustable steering system. You can now ride leaning forward or standing up – no other watercraft in the world allows you to do this. *A feature of the FZS and FZR models.*

NanoXcel

Light. Tough. Fast. Yamaha's revolutionary material saves a massive 25kg per machine. Despite the incredibly light weight, it's super-tough and delivers faster acceleration, better fuel economy and more agile handling. *A feature of all FX and FZ models.*

SUPERCHARGED 1812cc // 4-STROKE // 4-CYLINDER // DOHC

- New high-performance hull design
- NanoXcel hull and deck
- Quick-Shift Trim System (QSTS)
- Telescopic steering
- Reverse
- Remote security and Low-RPM mode
- Analogue tach/speedo
- Automatic electronic bilge system
- Convex dual mirrors
- Glove box and watertight storage
- Re-boarding step

FZR

ULTRA HIGH-PERFORMANCE MUSCLECRAFT

SEATS UP TO 2 RIDERS

ADJUSTABLE TELESCOPIC STEERING

Already checked out the amazing new FZS? Prefer the idea of an ultimate speed machine for one - or occasionally two? Then this is for you! The FZR is designed mainly for high performance solo riding, so the same lightest-in-class NanoXcel hull and supercharged 1812cc engine punches you onto the plane and draws the horizon towards you ... fast. The rounded keel and new bow shape mean you can carve tighter turns - and however rough the water, the stability and soft-riding performance of the FZR will be a new experience.

Talking of handling and comfort, the telescopic steering is also brand new - and unique to WaveRunner. Now you can lean forward and twist through the curves like a pro racer - or in choppy water, change to a 'stand-up' position for control with ease and style.

Fire up the FZR - Wait for the blast!

Supercharged power!

This sophisticated 1812cc engine is another world-first for Yamaha. Our latest supercharging and intercooling technology brings unmatched power, with quietness, economy and reliability.

A feature of FZ and FX SHO models.

Quick-Shift Trim System (QSTS)

Make instant changes in attitude on-the-fly! Comfortable twist-grip gives 5 trim positions, click-by-click, allowing tight turns and great control which gets you 'on the plane' and quickly up to top speed.

A feature of FZ and FX models.

SUPERCHARGED 1812cc // 4-STROKE // 4-CYLINDER // DOHC

New high-performance hull design • NanoXcel hull and deck • Quick-Shift Trim System (QSTS) • Telescopic steering • Reverse • Remote security and Low-RPM mode • Analogue tacho/speedo • Automatic electronic bilge system • Convex dual mirrors • Glove box and watertight storage

FX CRUISER SHO

ULTRA HIGH-PERFORMANCE FAMILY WATERCRAFT

SEATS UP TO 3 RIDERS

PERFECT FOR CRUISING AND FUN RIDING

This is our flagship - and your passport to the ultimate watercraft experience. With unparalleled performance on every level, this is the WaveRunner that turns dreams into reality. Latest-generation supercharged engine power, leading-edge electronic control systems and the lightweight NanoXcel hull technology all combine to create a machine that will stir your emotions and open up new horizons to explore and enjoy.

Everything about the revolutionary FX SHO - turn to page 16 - is also true of this Cruiser version, but the bar moves up yet another notch in terms of luxury and comfort for the longer-distance rider. Ergonomic seating, raised handlebars, a multi-function instrument panel and pull-up mooring cleats are just some of the luxury touches.

FX Cruiser SHO - Live the dream.

Electronic throttle

This advanced 'fly-by-wire' system delivers instant performance and response. For details of its other intelligent functions - Cruise-Assist, No-Wake Mode and Reverse Traction Control - see page 7.

A feature of all FX models.

Multi-function instrument panel

This stylish, sports car-style dash panel with its large analogue speedo/tacho shows clear, accurate readouts for fuel level, air and water temperature, compass heading, battery voltage and running hours.

A feature of both FX Cruiser models.

SUPERCHARGED 1812cc // 4-CYLINDER // 4-STROKE // DOHC

High-performance hull design • NanoXcel hull/deck • Quick-Shift Trim System (QSTS) • Cruise-Assist function • No-Wake Mode • Reverse Traction Control • Remote security and Low-RPM mode • Multi-function instrument panel • Pull-up cleats • Convex dual mirrors • Automatic electronic bilge system • Glove box and watertight storage

FX SHO

ULTRA HIGH-PERFORMANCE FAMILY WATERCRAFT

SEATS UP TO 3 RIDERS

IDEAL FOR TOWING WAKEBOARDS/WATER TOYS

The **FX SHO** is for the enthusiast who demands the very best all-round performance. The latest-generation 1812cc engine with supercharging and inter-cooling, makes it the fastest, cleanest, most efficient and economical watercraft in this class, ever. You just won't believe the quiet, surging power, the amazing speed or the precise, comfortable handling until you experience it.

A new standard of technical mastery is in evidence too - the Electronic Throttle package offers *Cruise-Assist* - which works like the cruise control in your car and even includes a *No-Wake Mode* to help you keep to speed limits!

NanoXcel, the revolutionary super-light, super-tough hull and deck material, is another performance-enhancing feature of all our top models.

Details count too, so you'll appreciate the drinks holders, the smart, sports car-style dash panel and the generous watertight storage space.

FX SHO - be prepared to love it.

Supercharged power!

This sophisticated 1812cc engine is another world-first for Yamaha. Our latest supercharging and intercooling technology brings unmatched power, with quietness, economy and reliability.

A feature of FZ and FX SHO models.

Quick-Shift Trim System (QSTS)

Make instant changes in attitude on-the-fly! Comfortable twist-grip gives 5 trim positions, click-by-click, allowing tight turns and great control which gets you 'on the plane' and quickly up to top speed.

A feature of FZ and FX models.

SUPERCHARGED 1812cc // 4-CYLINDER // 4-STROKE // DOHC

High-performance hull design • NanoXcel hull/deck • Quick-Shift Trim System (QSTS) • Cruise-Assist function • No-Wake Mode • Reverse Traction Control • Remote security and Low-RPM mode • Analogue tach/speedo • Multi-function digital meters • Convex dual mirrors • Automatic electronic bilge system • Glove box and watertight storage

FX HO // FX CRUISER HO

ULTRA HIGH-PERFORMANCE FAMILY WATERCRAFT

SEATS UP TO 3 RIDERS

PERFECT FOR CRUISING AND FUN RIDING

It's a simple combination - sleek lines and great performance - but that's how one of these smooth, fast and economical watercraft will so easily win your heart. The power now comes from the latest 1812cc Yamaha engine, although in these models it is naturally aspirated rather than supercharged. Also helping to deliver the winning mix of performance, handling and economy is the super-light, super-tough NanoXcel hull and deck material.

Electronic throttle control, Quick-Shift Trim System (QSTS), remote control security, 70-litre fuel capacity, watertight storage compartments ... all will play their part in helping you choose the FX High Output.

The Cruiser version shares the same hull and engine, but with luxury seating ergonomically designed for maximum cruising comfort and minimum driver fatigue. You might appreciate the convenient pull-up mooring cleats, too.

FX HO - For the explorer in you.

Electronic throttle

This advanced 'fly-by-wire' system delivers instant performance and response. For details of its other intelligent functions - Cruise-Assist, No-Wake Mode and Reverse Traction Control - see page 7.

A feature of all FX models.

NanoXcel

Light. Tough. Fast. Yamaha's revolutionary material saves a massive 25kg per machine. Despite the incredibly light weight, it's super-tough and delivers faster acceleration, better fuel economy and more agile handling.

A feature of all FX and FZ models.

1812cc // 4-CYLINDER // 4-STROKE // DOHC

High-performance hull design • NanoXcel hull/deck • Quick-Shift Trim System (QSTS) • Cruise-Assist function • No-Wake Mode • Reverse Traction Control • Remote security and Low-RPM mode • Analogue tacho/speedo • Multi-function digital meters • Convex dual mirrors • Automatic electronic bilge system • Glove box and watertight storage. FX Cruiser HO only: Cruiser seat • Pull-up cleats

UX DELUXE // UX CRUISER

HIGH-PERFORMANCE FAMILY WATERCRAFT

SEATS UP TO 3 RIDERS

PERFECT FOR CRUISING AND FUN RIDING

The names say it all – these two great-looking watercraft are the Deluxe and Cruiser versions of the hugely successful and market-leading VX (page 22).

They offer the same aggressive styling, exceptional economy, stunning performance and all-round ability, but included in their comprehensive specifications are some extra luxuries like dual convex mirrors, reverse and the Yamaha remote security system. What's more, you're getting the machine that won the coveted *Watercraft of the Year* title for Yamaha - for the 7th time!

The VX Cruiser is specifically geared for the joys of relaxed, long-range performance cruising in the way only Yamaha know how, the luxurious Cruiser seat providing outstanding driver and passenger comfort over long distances, along with perfect cornering control and sure-footed handling.

Security by remote control

A simple button-push disables the ignition, preventing accidental start-up or unexpected joyrides! The 'L' mode (low-RPM) can also be selected, reducing the power available to the rider.

All models except VX and SuperJet.

Ultimate comfort

The result of a great deal of research into ergonomics, this stylish, elegant CRUISER seat with its comfortable textured upholstery, reduces rider fatigue and improves control.

1052cc // 4-CYLINDER // 4-STROKE // DOHC

High-performance hull design • Smooth, clean 4-stroke EFI engine • Reverse • Remote security and Low-RPM mode • Multi-function digital meter • Convex dual mirrors • Automatic bilge system • Glove box and large bow storage • Extended rear platform • Hydro-Turf mats. VX Cruiser only: Cruiser seating • Re-boarding step

UX

UX

HIGH-PERFORMANCE FAMILY WATERCRAFT

SEATS UP TO 3 RIDERS

IDEAL FOR TOWING WAKEBOARDERS/SKIERS

"Create a genuinely affordable range of economical-to-run 4-stroke watercraft". That was the brief given to the Yamaha design team – and achieved – with all three VX models, including this outstanding machine, the versatile and very popular VX. Like the VX Deluxe and VX Cruiser, it's a thoroughbred WaveRunner – all the way from sleek hull to compact power unit – yet this remarkable affordability comes without compromising either the performance of the clean, quiet, smooth, EFI 4-stroke VX engine ... or the legendary Yamaha reputation for riding comfort, super-sharp handling and turnkey reliability.

With its aggressive styling, exceptional fuel economy, stunning all-round performance and ability, the VX is a great way to start your adventures in the wonderful world of watercraft.

VX – Get out and have fun!

Unbeatable economy

The remarkable VX 4-stroke engine is at the heart of all the popular and successful VX models. Its EFI (Electronic Fuel Injection) system delivers clean, smooth power, controlled by the Yamaha Engine Management System (Y.E.M.S.), to deliver all-round performance and economy unmatched by any competitor.

1052cc // 4-CYLINDER // 4-STROKE // DOHC

High-performance hull design • Smooth, clean 4-stroke EFI engine • Outstanding fuel economy • Hyper-Flow jet pump • Multi-function digital meter • Automatic bilge system • Glove box and large bow storage • Extended rear platform • Hydro-Turf mats

SUPERJET

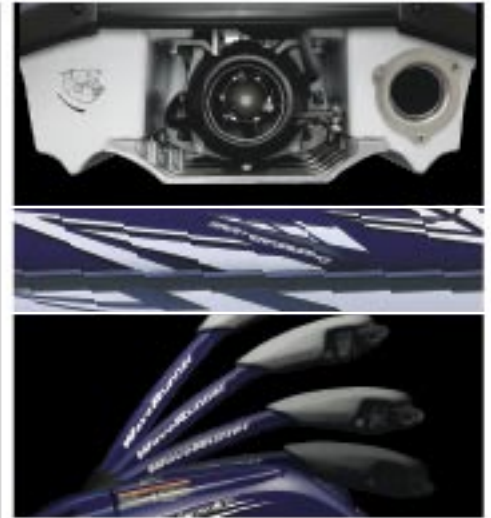

HIGH-PERFORMANCE RACING WATERCRAFT

1 RIDER - STANDING

THE YAMAHA SUPERJET IS SUITABLE FOR RACING USE ONLY

Ultra-light construction, catapult-like acceleration, unmatched carving ability and huge reserves of power from a smooth, versatile, competition-bred 2-stroke engine. That's how the Yamaha SuperJet has deservedly won its legendary status among pro racers.

But wait, it gets better! The latest generation SuperJet is faster, accelerates quicker, turns harder, is better balanced and therefore easier to control - and less tiring to ride. According to the professionals, nothing else even comes close. Except perhaps, another new SuperJet!

What do the pro racers say?

"Much quicker and more stable than any stand-up I've ever ridden before - it gave me huge confidence to attack the turns."

"Amazingly agile, with incredible grip and bite on the water - I know I can do some winning with this!"

"Easy and less tiring to ride - the wide-front hull, the clever handle pole design and the great riding position make a big difference."

701cc // 2-CYLINDER // 2-STROKE

Talk with your dealer to learn more about these technical and performance advantages: Lightweight, deep-strake hull with wide front section

- Pump and riding plate positioned to give long waterline length
- Rider position gives lean-forward posture ideal for racing
- Latest design handle pole to suit competition posture
- Hyper-Flow jet pump and adjustable steering nozzle
- Race-developed stainless steel impeller
- Yamaha Racing colours

Enjoy your WaveRunner!

You'll also find the following specifications and features as standard equipment on every YAMAHA WAVERUNNER in the line-up:

- Tool kit • 'Visibility' water spout • Electric start • Water cooling
- Overheat protection • RPM limiter • Automatic bilge pump
- Ignition 'STOP' switch with floating wrist lanyard

Please be responsible...

We should all exercise POWER WITH RESPONSIBILITY and help preserve the great sporting opportunities and enjoyment we all derive from our involvement with personal watercraft. You must recognise too, that your Yamaha WaveRunner is actually a boat, so please learn and follow all the rules of the sea and waterways, take professional instruction where possible, and obey local rules and regulations, which may differ greatly from area to area.
